BECAUSE IT IS WORTH STUDYING AT IPVC

The Polytechnic Institute of Viana do Castelo (IPVC) is located in the Alto Minho region in the northwest of Portugal, which has a population of around 250,000 inhabitants distributed throughout a territorial area of 2210 km². It borders Spain to the north and east, the district of Braga to the south, and the Atlantic Ocean to the west. The region is characterized by its rich natural landscapes, and the harmony of its diverse ecosystems – marine, fluvial, and terrestrial – makes it unique. IPVC offers various educational programs, including 26 licentiate degree programs, 28 master's degree programs, 27 professional and technical programs, and several graduate programs, across its six schools: Education, Agriculture, Technology and Management, Business Sciences, Health Professions, and Sport and Leisure.

IPVC SCHOOLS

- ESE - School of Education
- ESA - Agrarian School
- ESTG - School of Technology and Management
- ESS - School of Health
- ESCE - School of Business Sciences
- ESCE - School of Sports and Leisure

TESTIMONIAL

Gustavo Meirelles | Manaus, Amazonas, Brazil
ESCE | Marketing and Business Communication

My experience in Portugal and in the IPVC is amazing. About my experience at the IPVC: it is the best place I could be. I wouldn't trade IPVC for anywhere else. It's where I met incredible people, incredible teachers and an incredible infrastructure. I love being there. I go to class with the pleasure and anxiety to learn more and more, because my course captivates me, it was made for me. My experience with IPVC is for sure the best possible, and I recommend to everyone who wants to enter higher education: the IPVC
